DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-24, drawn to temperature sensor, classified in class 374, subclass 120.
 - II. Claims 25-31, drawn to method and system, classified in class 374, subclass 172.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions: Invention I is directed to a temperature sensor comprising a substrate and a membrane having resistances, while the method of Invention II does not require the particular temperature sensor of Invention I. Thus, the method of Invention II could be done with another temperature sensor (i.e., temperature sensor as described in claim 31), not necessarily with the temperature sensor of Invention I. The invention II does not require the particular temperature sensor comprising a membrane resistance and a substrate resistance required by Invention I.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2859

4. A telephone call was made to Mr. Troy on March 04, 2005 to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
